Product of the Year
palmOne Treo 650

The companies who have won a Mobility Award will get to use the award's logo in their marketing materials and on the Web. They will also be able to order a high quality blue leaded crystal vase for display in their lobby or display area.

Companies (and their PR agencies) who believe their mobile or wireless product or service should be considered for a 2006 Mobility Award should go to the MobileTrax Web site and complete the nomination form for the 2006 awards. The MobileTrax team will consider all nominations as well as make awards on its own. The selection process is at the sole discretion of MobileTrax. The decision process is independent of any financial commitment made by the vendor to MobileTrax. Only a limited number of Mobility Awards will be issued.

About MobileTrax: MobileTrax, LLC is a Silicon Valley-based, professional services firm that focuses on the mobile computing and wireless data communications markets. MobileTrax provides market research, executive conferences and consulting services regarding enterprise and consumer markets.

MobileTrax produces two industry events each year: Mobile Showcase for enterprise IT decision makers and Mobile Technology for systems integrators and wireless carriers. MobileTrax also publishes Inside Mobile and Wireless, an industry newsletter that's published on the first and third Wednesday's of each month. MobileTrax provides editorial analysis and insights regarding important topics in mobile and wireless. MobileTrax also produces a blog called Mobile Letter that covers commentary and summaries of new products and services. Finally, MobileTrax occasionally publishes Vendor Viewpoint that provides a visionary message from a senior executive at a vendor organization.

MobileTrax is headed by J. Gerry Purdy, Ph.D., a globally recognized authority on mobile computing and wireless data communications. Dr. Purdy is also a Venture Advisory at Diamondhead Ventures, an early-stage venture capital firm. More information can be found at www.mobiletrax.com.
